

EXPERIENTIAL LEARNING CENTRE

Lane End offers a range of cerebral, physical and challenge based activities. Conveniently located within 30 miles of central London, only 30 minutes from Heathrow airport and with easy access from both the M4 and M40 motorways.

Experiential Learning = Results

- Development through experiential learning is very direct and powerful. It provides a strong focus on what people are learning and how they will implement it. It is therefore imperative for our facilitators to understand the organisation's objectives.
- It is always our objective to deliver all programmes from a position where we know we can make a difference and achieve real results.
- We are working with clients in a diverse range of sectors on a broad range of projects.

WHAT WE CAN DO FOR YOU

We offer a modular service and are happy to deliver everything from a whole leadership development programme to a small experiential part of a much larger initiative.

WHAT IS THE COST TO YOU

£70 + VAT per person for full facilitation of up to three outdoor activities. Classroom facilitation can be arranged at an additional cost. You are welcome to bring your own team to facilitate both classroom and outdoor learning.

Give us a call on +44 (0) 1494 881171 to discuss your requirements.

EXPERIENTIAL LEARNING ACTIVITIES

Experiential Learning Activities

A half day programme with up to three activities at £70 + vat per person, or full day at £110 + vat per person with a minimum number of 12 participants. There are six purpose built activities to enhance team work and support classroom topics such as communication skills, team rolls, leadership, trust, delegation, etc.

SORT

30-40 minutes | A fascinating challenge that replicates silo management and the frustration of not being able to see the big picture.

Leadership • Communication • Strategic Planning • Trust, Delegation • Attention to Detail • Team Roles.

LINKED

30-40 minutes | A real test of team work. Members of the team are linked at their ankles while navigating their way across a carefully designed track from point A to B. All members must stay on the track.

Team Work • Communication • Trust • Leadership

REBUILD

30-40 minutes | Each delegate has a photograph of a large complex model. The team then needs to work together to rebuild the model from the pieces in front of them, but everything is not as straight forward as it may seem.

Vision Setting • Leadership • Communication • Teamwork • Performance Review

LOW ROPES

30-40 minutes | The team leader works with the team to plan and navigate the entire team across a course of low ropes. Safety helmets and a full health and safety briefing will be provided before the course.

Problem Solving • Leadership • Teamwork • Communication

GRABBER

40 minutes | All the team members except one are blindfolded. A communication and team work exercise to grab a target instrument with only the help of ropes and direction from the team.

Communication • Teamwork • Project Management • Leadership • Time Management • Conflict

ROCKET LAUNCH

30-40 minutes | Design build and test an air-powered rocket. Evaluate performance, modify and re-launch to reach the target. This activity is a great finalé after a series of fun yet intensive group activities.

Creativity • Planning • Communication • Evaluation • Control

There are a great number of portable activities that can be added to the experience, please call us to discuss your ideas and objectives.
